

The Need

In 2013, 8,078 children in Saginaw and Bay counties were involved in Children's Protective Services investigations. Of those children, 965 were confirmed as victims of abuse or neglect.

The Solution

Our CAPE programs reach thousands of people in the Great Lakes Bay Region.

- Nearly 2,400 elementary, middle and high school students participate in educational programs.
- More than 850 professionals are trained to act on behalf of abused or neglected children by reporting suspicions of abuse.
- Countless others are reached through newsletters, information fairs, parades, television/news coverage, and campaigns such as Pinwheels for Prevention® and National Child Abuse Prevention Month.
- Nearly all programs are available at no cost, with the exception of the Safe Baby infant simulator program.

CAPE is funded with the help of United Way and the Michigan Children's Trust Fund. The majority of our funding is from private donors who are committed to the prevention of child abuse.

Learn

The CAN Council helps prevent child abuse and neglect through education, awareness, intervention and advocacy programs.

Donate

Make a contribution to help support the CAN Council and its programs.

Volunteer

As a CAN Council volunteer, you can help prevent child abuse.

Parent & Community Education

GREAT START UNIVERSITY

Great Start University offers parenting classes at several sites. Using the evidence-based curriculum of “Parenting Wisely,” “The Incredible Years” and “Strengthening Families,” parents are able to enhance their parenting skills. “Parenting Wisely,” a 10-week program, covers topics such as refusing to go to bed, acting up in public, getting ready for school, homework responsibility, peer influence and violating curfew. “The Incredible Years,” a 20-week program, covers topics like effective praise and encouragement, motivating children through incentives, establishing routines and household rules, and effective limit-setting. “Strengthening Families,” a seven-week program, covers topics including love and limits, making house rules, encouraging good behavior, and using consequences.

STATE-MANDATED REPORTER TRAINING

This two-hour Michigan Department of Health and Human Services workshop was created for all professionals who work with children. The workshop outlines the legal responsibilities of professionals, identifies signs of abuse, reviews the reporting process, and introduces the purpose of the CAC (Children’s Advocacy Center) and CASA (Court Appointed Special Advocate) programs.

DARKNESS TO LIGHT

This 2.5-hour presentation seeks to help adults protect children from sexual abuse. Video clips from adult survivors of child sexual abuse are included. The purpose is to equip adults with simple, proactive steps to protect children from sexual abuse.

WHAT YOU DON’T KNOW COULD HURT A CHILD . . . MAYBE EVEN YOUR CHILD

This one-hour workshop gives parents and caregivers realistic tools to protect their children. The presentation includes interviews with convicted sex offenders who victimized children. The program educates adults about the techniques sex offenders use to trick adults and children, and it teaches parents how to protect their children.

OUR WORK IN YOUR COMMUNITY

This 25-minute presentation introduces the audience to the vital and inspirational work the CAN Council does in the Great Lakes Bay Region.

BABY ACADEMY

The Baby Academy offers a variety of helpful child-rearing resources for parents, grandparents, caregivers and childcare professionals. Participants attend breakout sessions to gain valuable insight on a variety of parenting-related topics and how to be the best parent or caregiver possible. The annual event also features booths selling products for children and families.

Student Education

SEXTING – PENALTIES AND CONSEQUENCES

Sexting is one of the fastest-growing trends with our youth. CAN Council offers a one-hour sexting presentation for teenagers, which addresses the legal penalties and social embarrassments of sexting. The free presentation is designed for teenagers, but parents are always welcome to join as well.

SAFE BABY

The Safe Baby program (formerly Baby Think It Over) provides students with age-appropriate information about fetal alcohol syndrome, safe sleep and shaken baby syndrome; how frustration can lead to abuse; and the realistic expectations of parenthood. The students take an infant simulator home for the weekend, and its treatment is recorded to evaluate care.

SAFER OLDER SMARTER (SOS)

Utilizing presentations and an interactive coloring book, the program teaches second-grade students effective, basic personal-safety skills. An average of 1,500 students receive the presentation during the school year.

Other presentations regarding child sexual abuse, mandated reporting, identifying and reporting abuse, and prevention education are provided by CAN Council Great Lakes Bay Region upon request.
